Center
[Learn about centers](#)

Basketball Facts

A standard basketball hoop is 10 feet high.

An official basketball game has 4 quarters, with each quarter being 12 minute long.

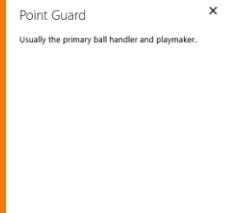

Each team has 5 players on the court at any given time.

The five positions in basketball are point guard, shooting guard, small forward, power forward and center.

Welcome to Basketball Hub

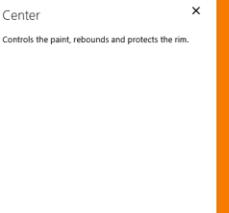

Explore key basketball positions and learn quick facts about the game.

Point Guard
Usually the primary ball handler and playmaker.

Shooting Guard
Often the best perimeter shooter on the team.

Center
Controls the paint, rebounds and protects the rim.
